# **Catalog**

**“Future Organic Plant Garden”**

**PT Binco Ran Indofarm** is a modern agribusiness company focused on coconut fiber processing and providing natural growing media to support sustainable agriculture. We develop a variety of superior coconut fiber-based products, such as cocopeat, cocopot, and cocorope, which are widely used in the agricultural, floriculture, and industrial sectors.

In addition, we produce other natural derivative products such as cocomat, brushes, brushes, and telescopic dusters made from cocobristle. We also provide additional growing media in the form of burnt rice husks and kohe (fermented manure).

Supported by modern production facilities, a smart greenhouse system, and educational tourism programs, **PT Binco Ran Indofarm** is committed to providing innovative, environmentally friendly, and globally valuable agricultural solutions.
